

SAFETY DATA SHEET

SECTION 1 - Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Product Name : 1105RC, 1105SC

Product Type : Polypropylene Homopolymer Plastic Resin

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses : Raw material for plastic industry, Resin, extrusion and compounding, plastic molding, molded articles, fibers and filaments

1.3 Detail of the Supplier of the safety data sheet

Manufacturer/Supplier : IRPC Public Company Limited

Address : 299 Moo. 5 Sukhumvit Road, Amphur Muang, Rayong THAILAND

Website : www.irpc.co.th, <https://polimaxx.irpc.co.th>

1.4 Emergency call : +66(0) 38802560

Section 2 - Hazards Identification

2.1 Classification of the substance or mixture

This product is not classified as dangerous according to Regulation (EC) No 1272/2008 and GHS

2.2 Label elements

Pictogram : Not Applicable

Signal Word : Not Applicable

Hazard Statement : -

Precautionary Statement : -

2.3 Other hazards

Section 3 - Composition / Information on Ingredients

3.1 Substances

Chemical Name	CAS Number	EC Number	Percent weight	SCL, M-factor, ATE
polypropylene	9003-07-0	Polymer	>=99%	-

3.2 Additional information

If molten material comes in contact with the skin, cool under ice water or a running stream of water.

Section 4 - First-aid Measures

4.1 Description of first aid measures

- General notes :** Remove affected persons from the danger area and ensure that is the safety area.
- Following inhalation :** Move the exposed person to fresh air.If breathing is difficult, give oxygen.Get medical attention if breathing difficulties continue.
- Following skin contact :** If molten material comes in contact with the skin, cool under ice water or a running stream of water.DO NOT attempt to remove the material from the skin.Get medical attention.
- Following eye contact :** Remove contact lenses, if worn.Get immediate medical attention.
- Following ingestion :** Not a probable route of exposure.If person is conscious, rinse mouth with water.Do not induce vomiting unless directed to do so by a physician.Seek medical advice.
- Self - protection of the first aider :** Please see the detail in Section6 and Section 8

4.2 Most important symptoms and effects, both acute and delayed

No data available

4.3 Indication of any immediate medical attention and special treatment needed

In the case of accident or if you feel unwell, seek medical advice immediately.

SECTION 5 - Firefighting measure

5.1 Extinguishing media

- Suitable extinguishing media :** Dry chemicals, foam, water, carbon dioxide and halon.
- Unsuitable extinguishing media :** Avoid using direct streams of water on molten burning material.

5.2 Special hazards arising from the substance or mixture

- Hazards during fire-fighting :** Carbon monoxide, carbon dioxide, original monomer other hydrocarbon oxidation products.

5.3 Protective equipment

- Use a mask with universal filler.
Use self-contained breathing apparatus and full protective clothing.

Section 6 - Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away.

6.1.1 For non-emergency personnel

- Protective equipment :** Observe the usual precautionary measures for chemicals.Wear protective equipment. Keep unprotected persons away.
- Emergency procedure :** Not available

6.2 Environmental precautions :

Discharge into the environment must be avoided.

6.3 Method and material for containment and cleaning up

- 6.3.1 For containment :** Place waste in an appropriate container for disposal.
- 6.3.2 For cleaning up :** Collect spilled material using a method that minimizes dust generation (e.g., wet methods, HEPA vacuum).
- 6.3.3 Other information :** Not available

6.4 Reference to other sections :

See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment.

Section 7 - Handling and Storage

7.1 Precaution for safe handling

- Protective measures :** Observe the usual precautionary measures for chemicals. Care should be taken during handling to prevent damage to packaging.
- Measures to prevent fire :** Avoid smoking, naked lights or ignition sources.
- Measures to prevent aerosol and dust generation :** Avoid dust generation. Accumulations of dust should be removed from settling areas.
- Measures to protect the environment :** Exhaust ventilation must be provided in such a way from the personnel handling the product and the efficiency of the exhaust equipment should be periodically checked. Management and monitoring according to local authority regulation.
- Advice on general occupational hygiene :** Handle in accordance with good industrial hygiene and safety procedures.

7.2 Conditions for safe storage, including any incompatibilities

- Storage conditions :** Local exhaust ventilation should be used over and in the vicinity of machinery involved in handling the molten material.
- Packaging materials :** Protect containers against physical damage and check regularly for leaks. Incompatible material should not be used.
- Requirements for storage rooms and vessels :** Ventilate enclosed storage areas, such as trailers and railcars, before entering.
- Further information on storage conditions :** Keep separated from incompatible substances.

7.3 Specific end use(s)

- Recommendations :** See the recommended processing condition and technical data sheet on this product for further information
- Industrial sector specific solutions :** No data available

SECTION 8 - Exposure controls/personal protection

8.1 Control parameters

Exposure limits : No exposure limit value known

8.2 Exposure controls

8.2.1 Appropriate engineering controls

Substance/mixture related measures to prevent exposure during identified uses :

Ensure that eyewash stations and safety showers are proximal to the work-station location.

Structural measure to prevent exposure : None specific

Organizational measures to prevent exposure : No data available

Technical measures to prevent exposure : Provide adequate general and local exhaust ventilation.

8.2.2 Personal protection equipment

8.2.2.1 Eye and face protection : Wear safety glasses with side shields, goggles or face shield.

8.2.2.2 Skin protection : Gloves required when handling hot material. In case of fire, wear MSHA/NIOSH approved self-contained breathing apparatus or equivalent and full protective gear.

Other skin protection : No data available

8.2.2.3 Respiratory protection : No special respiration protection is normally required.

8.2.3 Environmental exposure controls : Provide adequate ventilation when processing material at elevated temperatures.

Substance/mixture related measures to prevent exposure : For molten materials: Provide mechanical ventilation; in general such ventilation should be provided at compounding/ converting areas and at fabricating/filling work stations where the material is heated.

Instruction measures to prevent exposure : None specific

Organizational measures to prevent exposure : Monitoring and control the limit of emission, water discharge, and industrial waste according to local authority.

Technical measures to prevent exposure : None specific

SECTION 9 - Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance	: Opaque, translucent, colorless pellets or white fluff (powder), solid
Odour	: Characteristic odor
Colour	: Not Applicable
Boiling Point	: Not Applicable
Initial Boiling Point	: Not Applicable
Flash Point	: 348°C
Melting Point	: 130 - 170°C
Vapour Pressure	: Not Applicable
Auto ignition temperature	: 380°C
Solubility	: Insoluble in water
Viscosity	: Not Applicable
Upper/Lower flammability or explosive limit	: Not Applicable
pH	: Not Applicable
Relative density	: Not Applicable
Vapour density	: Not Applicable
Partition characteristics	: Not Applicable
Specific Gravity	: 0.85-0.95 g/cm ³
Partition coefficient: n-octanol/water	: Not Applicable
Decomposition temperature	: Not Applicable
Explosive properties	: Not Applicable
Bulk Density	: 600 (pellet)

9.2 Other safety information :

SECTION 10 - Stability and reactivity

- 10.1 Reactivity : Stable under recommended storage conditions.
- 10.2 Chemical stability : Stable under recommended storage conditions.
- 10.3 Possibility of hazardous reactions : Non hazards under normal handling and storage conditions
- 10.4 Condition to avoid : Avoid heating above the recommended processing temperature.
- 10.5 Incompatible material : May react with free halogens.
- 10.6 Hazardous decomposition products : Small quantities of low molecular weight hydrocarbons, carboxylic acids, carbon oxides can be formed during thermal processing.

SECTION 11 - Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

No relevant studies found.

Acute toxicity : Conclusive but not sufficient for classification.

Skin corrosion/irritation : No data available

Serious eye damage/irritation : No data available

Respiratory or skin sensitisation : No data available

Germ cell mutagenicity : No data available

Carcinogenicity : No data available

Reproductive toxicity : No data available

STOT-single exposure : No data available

STOT-repeated exposure : No data available

Aspiration hazard : No data available

11.2 Irritating/corrosive effects

Eye Irritation : Solid particles may cause transient irritation from mechanical abrasion.

Skin Irritation : Molten material may cause thermal burns.

Inhalation : Process fumes may cause irritation.

Ingestion : May cause a choking hazard if swallowed.

Section 12 - Ecological Information

12.1 Toxicity : No relevant studies found.

12.2 Persistence and degradability

Abiotic Degradation : No data available

Physical and photo-chemical elimination : No data available

Biodegradation : This material is not expected to be readily biodegradable.

12.3 Bioaccumulative potential : No data available.

Partition coefficient n-octanol/water (log K_{ow}) : No data available

Bioconcentration factor (BCF) : No data available

12.4 Mobility in soil : This substance is not in Annex I of Regulation (EC) 2037/2000 on substances that deplete the ozone layer.

Known or predicted distribution to environmental compartments : No relevant studies identified.

Surface tension : No data available.

Adsorption/Desorption : No data available

12.5 Results of PBT and vPvB assessment : No relevant studies identified.

12.6 Endocrine disrupting properties : No relevant studies identified.

12.7 Other adverse effects : This substance is not in Annex I of Regulation (EC) 2037/2000 on substances that deplete the ozone layer.

12.8 Additional information : No data available

Section 13 - Disposal Considerations

13.1 Waste treatment methods

13.1.1 Product / Packaging disposal : Shelf life considerations should also be applied in making decisions of this type. Observe all label safeguards until containers are cleaned and destroyed. Recycling or reuse may not always be appropriated.

Waste codes / waste designation according to LoW : No data available

13.1.2 Waste treatment-relevant information : Dispose of by: burial in a land-fill specifically licensed to accept chemical and/or pharmaceutical wastes or Incineration in a licensed apparatus (after admixture with suitable combustible material)

13.1.3 Sewage disposal-relevant information : Do not allow this material to drain into sewers/water supplies.

13.1.4 Other disposal recommendations : No data available

Section 14 - Transport Information

Regulatory information	UN number	Classes	Packing group	Label	Additional information
DOT	Not regulated	-	-	-	-
ADR/RID	Not regulated	-	-	-	-
IMDG CODE	Not regulated	-	-	-	-
ICAO/IATA	Not regulated	-	-	-	-

Environmental hazards : not available

Special precautions for user : not available

Maritime transport in bulk according to IMO instruments : not available

Section 15 - Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Toxic Substances Control Act : All components of this product are on the TSCA Inventory.

European Inventory of Existing Commercial Chemical Substances (EINECS) :

The components of this product are on the EINECS inventory or are exempt from inventory requirements.

Canada - WHMIS : Material is not controlled under WHMIS.

15.2 Chemical Safety Assessment

Material is not controlled under WHMIS.

Disclaimer:

The data indicated above are the results of IRPC's examinations, knowledge and correspond to the state of the art as of the date of publication and the data refers to the state of the related laws and regulations as of the date of issue. This information will expire after a break in delivery lasting more than 12 (twelve) months or in case of regulatory changes. This "Statement" is provided and subjected to IRPC's terms and conditions and IRPC reserves the right, in its sole discretion, to amend the product specification(s) at any time.

This "Statement" is not intended and shall not be construed as specification, warranty, expressed or implied, or representation of any kind that IRPC would have any legal responsibility or liability. The applicability, accuracy, completeness, reliability, usability, availability, validity with respect to the data or information under this Statement and/or the suitability of IRPC's products cannot be guaranteed for any purpose. IRPC gives no guarantees or makes no warranties of any kind, express or implied, including, but not limited to, any warranties of merchantability, satisfactory quality, non-infringement or fitness for a particular purpose, whether arising by operation of law or otherwise.

In the case that IRPC's products are used in combination with other materials, no liability admitted. When not utilized in combination with any third-party products, the information mentioned above refers only to IRPC's products. It is the customer's responsibility to inspect and test IRPC's products in order to satisfy itself as to the suitability of the products for the customer's particular purpose.

The customer shall be responsible for the appropriate, safe and legal use, processing and handling of IRPC's products. IRPC shall not be liable for any false, inaccurate, inappropriate or incomplete data or information presented on this Statement.

Please do not hesitate to ask IRPC for new information if needed. All terms and conditions regarding the supply of IRPC's products shall be subjected to IRPC's Policy. In the event that any dispute arises, IRPC's decision is final and not subject to appeal.
